

TREATMENTS TAKE FROM ONLY 10 MINUTES - INSTANT INCH LOSS EVEN AFTER YOUR FIRST TWENTY MINUTE SESSION - GUARANTEED RESULTS

Say Goodbye to Cosmetic Surgery!

Experience the next generation of non-invasive cosmetic treatments

GENIE COMPLETE
The Ultimate Slimming & Toning System

GENIE COMPLETE

THE ULTIMATE SLIMMING & TONING SYSTEM

- TREATMENTS TAKE FROM ONLY 10 MINUTES
- GUARANTEED RESULTS
- ASSISTS TOWARDS INCH LOSS EVEN AFTER YOUR FIRST 20 MINS SESSION
- BUST & BUTTOCK LIFTING
- EFFECTIVE CELLULITE REDUCTION

"Genie can now offer a real alternative to surgery"

Dr R Baxendale PhD BSc
Inventor of Medicine Technology

Genie Complete - The Ultimate Slimming & Toning System incorporates the most powerful non-surgical face-lift machine on the market today. This is thanks to the 10 minute face-lift technology of Mediwave, built in to an equally as powerful body contouring system. The unique body hub has 24 separate computerised outlets and 11 different wave shapes that enable the machine to perform multiple treatments for the face/body. There are specific pre-programmed modes for the following body treatments. The 4 basic operating modules are:

• SLIMTONE MODULE

This provides slimming, toning and cellulite programmes for the body. Results are immediate and can be intensified depending on the level of your work out just like conventional exercise.

• LYMPH MODULE

The lymphatic drainage module has been specifically designed to increase the lymphatic flow of the body. The treatment will control the muscles, which stimulate the flow of lymph fluid. The results are rapid inch loss, detoxing of the lymph.

• TAKE TEN MODULE

Dr Ronald Baxendale developed the non-surgical face-lift function of Genie currently known as the 10 minute face-lift. As one of the world's leading neurophysiologists and an expert in therapeutic electrical stimulation he adapted the system to suit the beauty industry using vast scientific knowledge.

He developed a safe waveform up to one thousand times stronger than anything else available on the market. Because of the strength of the waveform treatment times are only ten minutes and results are visible after the first session. This has been further developed and combined with the body shaping system. The results are a face and body re-shaper that provides a complete workout in just over 30 minutes. Each facial session takes only ten minutes in comparison to other machines that can take 30-60 minutes per treatment. Each body session takes only 20 minutes in comparison to other machines which can take up to an hour per treatment. It is the only system on the market that actually rebuilds facial muscle mass thanks to the Mediwave Technology that is unique to the Genie system. Genie is known as a personal trainer for the face and body.

• BIOTECH FACE & BODY

By utilising a unique combination of specific waveforms and frequencies that work in harmony with the body's own bio-electrical impulses and signals that have been medically documented to stimulate muscle tone and enhance skin tissue. Known as microcurrents, these encourage an increase in the body's natural ability to increase protein supply and in particular collagen and elastin. Biotech can also be used on the body to assist in the treatment of cellulite, loose skin, stretch marks and even bust lifting.
